

SARC Information

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Mission Statement School Year 2025-2026

At Marconi Learning Academy, our mission is to provide students seeking an alternative school setting with a personalized, supportive, and academically rigorous learning experience that empowers them to take ownership of their education and graduate with the skills, confidence, and character to become responsible citizens and lifelong learners.

We proudly serve an important and diverse group of students from our community, young people who deserve a learning environment that understands their challenges, values their individuality, and is committed to helping them realize their full potential. Our dedicated team works each day to ensure that every student receives the guidance, encouragement, and tools needed for both academic success and personal growth.

In carrying out this mission, we reaffirm our commitment to continuous improvement through the use of research-based programs, effective instructional strategies, and best practices that reflect the evolving needs of 21st-century learners. We equip students with the critical skills necessary for today's world the ability to read, write, speak, and reason with clarity and precision and to engage intelligently and responsibly in a global society.

Our personalized learning model offers flexible pathways through site-based instruction, one-on-one support, and distance learning opportunities, enabling students to acquire the knowledge and confidence to make a lasting difference in their own lives and in their communities. We cultivate a student-centered and inclusive environment where all learners are held to high academic and behavioral standards. Students collaborate with peers, engage in meaningful community service, and develop the self-motivation and resilience needed to be successful beyond high school.

Recognizing that family engagement is vital to student success, we view parents and guardians as essential partners in the educational process. We encourage active participation through ongoing communication, school events, parent-teacher conferences, ELAC/PAC meetings, and parent development workshops. Our community partners also provide vital support related to job skills and essential needs. Business partners offer opportunities for job tours, presentations, career fairs, and mentorship. Many other community partners provide food, clothing, and emergency shelter for students and their families. By fostering strong partnerships between home and school, we strengthen our shared commitment to student achievement and lifelong learning. At Marconi Learning Academy, we remain steadfast in our dedication to knowing our students, supporting their goals, and continuously refining our practices to ensure every student has the opportunity to succeed today, tomorrow, and beyond.

School Description and Profile School Year 2025-2026

Marconi Learning Academy is a public charter school that offers a personalized educational program designed for high school students and families who value a flexible, individualized approach to learning. We take pride in truly knowing our students—their strengths, their challenges, and their goals—and we are fully prepared and equipped to provide the academic, social, and emotional support they need to thrive. Many of our students come to us seeking an alternative to the traditional high school model. Some have struggled in larger or more conventional settings and need a different path toward success. Others require flexibility to balance school with work, family responsibilities, or personal circumstances. Whatever their story, we meet each student where they are and help them move forward with purpose and confidence.

Our dedicated educators build strong, supportive relationships with every student, creating an environment that encourages growth, accountability, and achievement. Through rigorous, standards-based instruction aligned with the California Subject Area Content Standards, we ensure that students are not only meeting academic expectations but also developing essential skills for life beyond high school. At Marconi Learning Academy, we are committed to helping students succeed not just in their courses and school activities, but also in their post-secondary goals whether that means college, career, or another meaningful next step. Our robust career technical education courses and certifications allow students to earn industry certifications while still in high school. We have students completing Certified Nursing Assistant Programs, State Preschool Teachers Assistant Programs, and CA Certificated Dental Assistant. We strive to have all students complete two community college courses by the time they graduate from high school. This gives students the confidence that they can be successful in further training for their careers, whether through job skills training, higher education, or participation in military programs. By combining personalized learning with comprehensive support and future-focused guidance, we empower every student to realize their full potential and build a foundation for lifelong success.

A. CONDITIONS OF LEARNING

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Teacher Assignment

The school recruits and employs qualified credentialed teachers who meet all credential requirements in accordance with State of California guidelines. This chart displays information about teacher credentials at the school.

Note: As an independent charter school, the school's program, resources, and administration are run independently from the sponsoring district, so there is no district data to report for comparison in this section.

Teacher Misassignments & Vacancies

Misassignments refers to the number of positions filled by teachers who lack legal authorization to teach that grade level, subject area, student group, etc. Teacher vacancies reflect the number of positions to which a single designated certificated employee has not been assigned at the beginning of the year for an entire semester or year.

Textbooks & Instructional Materials School Year 2025-2026

The school determined that each student has sufficient and good quality textbooks, instructional materials, or science lab equipment pursuant to the settlement of Williams vs. the State of California.

All students, including English Learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects, health, foreign languages, and visual and performing arts for use in the classroom and to take home.

The table displays information collected in December 2025 about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school.

B. PUPIL OUTCOMES

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide Assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
 2. **Smarter Balanced Summative Assessments and CAAs for Mathematics** in grades three through eight and grade eleven.
 3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
- **College and Career Ready:** The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.
- Note: As an independent charter school, the school's program, resources, and administration are run independently from the sponsoring district, so there is no district data to report for comparison in this section

Career Technical Education (CTE) Programs School Year 2024-2025

The school continues to expand its Career Technical Education (CTE) program and access to college courses. The school recognizes the need to integrate core academic knowledge with technical skills for today's modern workforce. It is committed to providing students with greater opportunities to develop these skills through its continued efforts to build relationships with local businesses and community colleges. All students take the Foundations for Jobs for American Graduates (JAG) upon enrolling. The student's career choice development is furthered by taking Career Exploration at their local Community College. Next, students can take many CTE exploration courses through IMAGO online courses or additional in-person or community college courses. We offer certification programs in CA Dental Assistant and Certified Nurse Assistant. There are also CTE pathways in Child Development/Education, Business Management, and Health. Expansion of pathways and certification programs will include Public Service and other workforce development programs. Students also have the opportunity to participate in WIOA/JAG additional workforce activities, such as resume building, interview skills, job shadowing, business tours, and more. Many of our student participate in the Workforce Innovation Opportunity Act (WIOA).

This table displays information about participation in the school's Career Technical Education (CTE) and WIOA programs.

UC/CSU Course Completion

Admission Requirements for the University of California (UC)

Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state’s high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <https://admission.universityofcalifornia.edu/>.

Admission Requirements for the California State University (CSU)

Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <https://www2.calstate.edu/>.

Students are encouraged to take University of California/ California State University (UC/CSU) preparatory courses if they plan to attend a four-year university. All students must pass each course with a grade no lower than a ‘C’.

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8):

- Pupil outcomes in the subject area of physical education

Physical Fitness

In the spring of each year, all California schools are required by the state to administer a physical fitness test to students in the fifth, seventh, and ninth grades. The physical fitness test is a standardized evaluation that measures each student’s ability to perform fitness tasks in five major areas. Students who meet or exceed the standards in all six fitness areas are considered physically fit or in the “Healthy Fitness Zone” (HFZ).

TABLE 24: CALIFORNIA PHYSICAL FITNESS TEST 2024-20245PERCENTAGE OF STUDENTS PARTICIPATING IN EACH OF THE FITNESS COMPONENTS					
Grade	Component1: Aerobic Capacity	Component 2: Abdominal Strength and Endurance	Component 3: Trunk Extensor and Strength and Flexibility	Component 4: Upper Body Strength and Endurance	Component 5: Flexibility
9	70.20%	71.90%	71.90%	71.90%	71.90%

Note: The administration of the PFT requires only participation results for these five fitness areas.

Note: To protect student privacy, an asterisk (*) is used in the table when the cell size within a selected student population is ten or fewer.

C. ENGAGEMENT

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site

Opportunities for Parental Involvement School Year 2025-2026

Marconi Learning Academy is committed to fostering strong parent engagement and meaningful partnerships with our families and community. We value the diverse backgrounds of our students and strive to build trusting relationships that honor and empower the uniqueness of every individual. We believe that student success—in academics, college and career readiness, and life skills—is a shared responsibility among educators, families, students, and community members.

Marconi Learning Academy is dedicated to providing a safe, supportive, and respectful environment where all educational partners collaborate to help students reach their full potential and make a positive impact on our community.

To promote consistent family involvement, the School offers a variety of engagement opportunities throughout the year. The Parent Advisory Committee (PAC) and the English Learner Advisory Committee (ELAC) meet quarterly to gather valuable input from families and community members regarding the planning, development, implementation, and evaluation of our school programs. These committees also provide insight and recommendations that help strengthen our Local Control and Accountability Plan (LCAP). All educational partners receive updates and are invited to provide feedback on the progress of the LCAP throughout the year.

In addition, Marconi Learning Academy hosts several major events and family engagement opportunities, including Open House, Back-to-School Nights, Student Showcases, Family Paint Nights, and Parent Conferences. Parents are notified of these events through automated phone calls and web-based communications from teachers and administrators. Families interested in participating may contact the school office at 916-974-7307.

Parent Conferences and Open House events serve as important opportunities for communication among teachers, parents, students, and community partners. Parents are encouraged to contact their child's teacher at any time during the school year to support academic progress toward graduation.

State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school dropout rates;
- High school graduation rates; and
- Chronic Absenteeism.

Dropout & Graduation Rates

In knowing the "at risk of dropping out" status of the majority of students enrolling in the school, we begin interventions from the point of enrollment. Upon enrollment students' complete credit 1 of Professional Skills and receive a personalized learning plan to meet their goals. In addition, students are supported in determining their college and career interests and plans. The teacher builds upon this throughout the year to support academic planning as well as college and career readiness.

Students also participate in academic assessments, such as NWEA, after enrollment. The academic assessments assist faculty and the students to understand the strengths and weaknesses of the student. More importantly, this method helps students receive any remedial help they may need and ensures students are not enrolling in courses too far removed from their current academic abilities. Unlimited free tutoring availability also serves as an intervention for students, when they struggle with particular concepts. Together, all early interventions are intended to promote attendance and reduce the likelihood of student dropouts. However, these standard interventions are not always met with student success.

When faculty and staff (at school) witness a decline in the attendance of a particular student, more specific and targeted interventions take place in progressive steps:

- A missed day of school results in a call home from the student's teacher
- A pattern of missed school days results in a parent-teacher or adult student-teacher conference
- A continued pattern of missed school days after a teacher conference results in an Attendance Intervention Meeting (A.I.M). In this meeting the parent or adult student meet with the Student Retention Support specialist to discuss the legal requirements of school attendance for minors and problems adults face as high school dropouts. If the student/parent cannot be reached, a home visit will be conducted.
- A continued pattern of missed school days after an A.I.M. intervention is escalated to a Student Retention Meeting (S.R.M) intervention. Student Retention Meetings include the School Counselor, Supervising Teacher, School Administrator, and the Student Retention Support specialist. When the student and parent meet with the S.R.M. team, serious conversations take place about the appropriateness of independent study for the student, school options, and the serious long-term consequences of dropping out of school.

Note: The California Department of Education DataQuest system reports four-year cohort graduation and dropout numbers. The one-year graduation rate is reported through the California School Dashboard and internal student information systems data was used in the chart below, because it was the most recently available source. The school is a Dashboard Alternative School Status (DASS), because the student population served is typically behind in credits. The tables display the most current data available. N/A is displayed when the school is new, or there is no data available to report, because the state did not report their data when this report was published.

Note: The California Department of Education DataQuest system reports the Four-Year Adjusted Cohort Rate (ACGR) for all regular high schools. However, the ACGR is not a match for our school, because we are an approved Dashboard Alternative School Status (DASS). We serve a student population who are typically behind in credits, and not likely to graduate on time in a regular school setting. As a DASS school, we report the one-year graduation rate, which is calculated internally or from the California School Dashboard. The tables display the most current data available. N/A means that data was not available at the time of publication.

Note: To protect student privacy, an asterisk (*) is used in the table when the cell size within a selected student population is ten or fewer.

Chronic Absenteeism

The current Chronic Absentee rate is not calculated in a manner for non-classroom based DASS programs to reflect the nature of the students served. According to the CDE, students are determined to be chronically absent if they were eligible to be considered chronically absent at the selected level during the academic year and they were absent for 10% or more of the days they were expected to attend. Marconi Learning Academy follows all of the required CA State School Dashboard requirements.

School Safety School Year 2025-2026

Our school Safety Plan consists of our Injury and Illness Prevention Program, Emergency Procedures and Section 4 of our Employee handbook. Sponsoring School Districts ask for these safety programs as part of our charter’s renewal process. We review our School Safety Plans annually and update them if necessary. The safety of students and staff is a primary concern for the school. Both teachers and administrators supervise the students throughout the school day to ensure a safe and positive learning environment. Both staff and student school IDs are expected to be displayed at all times, and visitors to the sites must register in at the front office to receive appropriate identification badges. The school safety plan was last updated and reviewed with school staff in December 2025.

D. OTHER SARC INFORMATION

The information in this section is required to be in the SARC but is not included in the state priorities for LCFF.

Class Size

Due to the nature of independent study, class size distribution data is unavailable for this school.

Counseling & Support Staff
School Year 2024-2025

Using the ASCA National Model as a framework to deliver comprehensive school counseling services, school counselor seek to assist all students in the social/emotional, career and academic domains with specific attention to healthy personal development and growth. The school counselor's primary role is to support students with any barriers hindering their academic progress as they work towards completing their high school diploma. School counseling services are delivered through guidance curriculum, individual planning, responsive services, referrals to outside agencies, consultation and collaboration.

The following is a list of support staff available to students at the school.

School Expenditures Fiscal Year 2023-2024

The table provides a comparison of the school's per pupil funding from unrestricted sources with other schools throughout the state. Supplemental/Restricted expenditures come from money whose use is controlled by law or donor. Money designated for specific purposes by the district or governing board is not considered restricted. Basic/Unrestricted expenditures, except for general guidelines, are not controlled by law or donor. The California Department of Education issued guidance regarding how to calculate school-level per-pupil expenditures.

For detailed information on school expenditures for all districts in California, see the CDE Current Expense of Education & Per-pupil Spending Web page at <http://www.cde.ca.gov/ds/fd/ec/>.

For information on teacher salaries for all districts in California, see the CDE Certificated Salaries & Benefits Web page at <http://www.cde.ca.gov/ds/fd/cs/>.

Professional Development

The school’s certificated staff members and administrators participate in ongoing professional learning to improve educator practice, knowledge, and skills with a focus on increasing student learning, leadership development, and social emotional learning. Dedicated time is set aside for

staff professional development throughout the school year. These sessions focus on topics aimed at strengthening pedagogy and content knowledge to meet the needs of the school’s diverse learners. Special emphasis is placed on targeting the unique needs of its English language learners, special education students, and lowest-performing students. With a focus on continuous improvement, staff participate in regularly scheduled Professional Learning Communities in which they come together in content-alike teams to analyze student learning data to better inform curricular and instructional decisions that will address the immediate learning needs of students.

The school’s leadership team works in partnership with the professional learning coordinator to develop an Annual School Professional Development Plan. This plan addresses the school-wide focus areas each year and allows for the coordination of staff learning and development opportunities and ongoing instructional coaching for its Educators. Professional learning topics are determined by the school’s identified needs, which are informed by staff feedback gathered through department meetings and surveys, as well as by the collection and analysis of data highlighting areas for improvement and growth. Professional Development is evaluated annually to determine the impact on Educator Practice and the effectiveness on student learning outcomes.

In addition, school administrators participate in ongoing professional learning with the focus on effective school leadership practices and instructional leadership. New school administrators participate in the Administrators Leadership Program which provides job-specific guidance and professional development for new school leaders. Each new school administrator in this program is paired with an experienced school administrator who supports them as they develop in their new leadership role. The ALP program also includes a Community of Practice where new school leaders come together to meet quarterly throughout the school year to share best practices, problem solve through challenges, and request for additional support/resources.

Through the school’s New Staff Onboarding Program, newly hired certificated and non-certificated staff are paired with experienced, job-alike trainers/mentors to complete on-the-job training. This process helps them understand their specific roles and equips them with the skills and knowledge they need to be successful. The New Staff Onboarding Program also provides targeted professional learning through a series of in-person learning sessions. These multi-part learning sessions are known as the Educator Foundations Modules and includes: Portrait of Organization, Curriculum and Instruction, Data and Assessment, Personalizing Student Learning, Serving Special Populations, Ed Tech Essentials, and Trauma-Resilient Educational Communities. These learning modules provide the opportunity for new hires to develop an understanding of the school’s mission, vision, and goals with a key focus on supporting the learning and achievement of the students that we serve.

The school also offers an Induction Program for teachers holding a Preliminary Teaching Credential, made possible through its partnership with the local County Office of Education. Participating teachers are partnered with a highly-qualified Induction Mentor at their school site and participate in all required Induction Program activities to earn their Clear Teaching Credential. The school’s Special Education Teachers and paraprofessionals receive annual training on new procedures and processes, as well as effective instructional strategies for improving academic achievement. In addition to ongoing professional development opportunities offered locally, staff also participate in various educational conferences including: the California Charter Schools Association’s annual CCSA Conferences, the California

Association for Bilingual Education’s (CABE) Conference, Professional Learning Communities at Work Institute, Spring CUE Conference, and other conference events sponsored by the CDE and/or County Offices of Education.
